Experience Summary

Graphic and Web Designer/Developer with a strong foundation in UI and UX design. I design and create unique websites. Along with a foundation in design, I have web development skills. I can code fully functional websites with the following languages: HTML, CSS and JavaScript.

Skills

Web development languages: HTML, CSS and JavaScript • **Frameworks:** Bootstrap, React
Methodologies: Azure DevOps • **IDE:** Visual Studio • **Builders:** WordPress, LeadPages, Shopify
Design Programs: Adobe Photoshop, Adobe Illustrator, Adobe XD

Experience

Prosper IT Consulting

UI UX Designer, Apr 2020-Present

Designed a full website including wireframes and mockups using Adobe Photoshop. Within Photoshop I made use of layers, fx effects and utilized clipping masks. My designs incorporated design principles such as the Gestalt principles. I then created prototypes of my designs using Adobe XD.

Pendulum Aerial Arts, Portland OR

Graphic designer and Coach, Dec 2015-Jun 2019

Regularly updated the design of the company website hosted on WordPress. Edited images for the website using Photoshop's abilities such as masking and filters.

Pacific Building Insight, Portland OR

Web designer and Assistant, Mar 2017-Jul 2018

Re-designed company website hosted on Wordpress and updated content regularly.

Education

The Tech Academy, Portland OR

UI UX Designer, Completed May 2020

Intensive design and coding program which included fundamentals of design principles such as color theory, gestalt principles and more. I studied design programs and web development. Created many web designs and created the prototypes and websites based on my design.

Portland Community College, Portland OR

Digital Arts Certificate and Wordpress Courses, Completed 2018-2019

Program including extensive training in design and design programs including Adobe Illustrator and Adobe Photoshop.

Forest Grove High School, Forest Grove OR

High School Diploma, Graduated 2015
